WALL UPRIGHTS WITH FOOT

Codes: **5920-PBO, 5920-PGA** height 203 cm, depth 7,2 cm
5915-PBO, 5915-PGA height 150,5 cm, depth 7,2 cm
5910-PBO, 5910-PGA height 108,5 cm, depth 7,2 cm

Description: each upright is supplied with two brackets and is made from 50 x 72 mm T-section extruded aluminium fitted with a 105 mm pitch through-hole rack, and a matt black, matt white or silver grey epoxy-powder coating.

The upright has a top high-tech polymer cap painted in the same colour as the upright. The shelves are slotted in from the front, whilst the wall-mounting brackets are anchored to the back.

The wall-mounting brackets are made in epoxy-powder coated steel in the same colour as the uprights and have three anchoring points each; they are also fitted with safety elements to guarantee anti-extraction and secure fastening of the uprights to the wall. The uprights come with satin nickel-plated steel adjustable feet and locknuts.

OPTIONAL FEET

Code: **5996-C**

Description: wide ø 50 mm adjustable foot and foot locknut, both made from satin nickel-plated steel. Recommended for parquet floors.

(Suitable for use with codes 5925-PGA, 5925-PBO, 5925-PN, 5910-PGA, 5910-PBO, 5910-PN, 5915-PGA, 5915-PBO, 5915-PN, 5920-PGA, 5920-PBO, 5920-PN)

Code: **5997-C**

Description: high ø 50 mm adjustable foot and foot locknut, both made from satin nickel-plated steel. To be used with skirting boards measuring max H. 85 mm and max W. 20 mm. (Suitable for use with codes 5925-PGA, 5925-PBO, 5925-PN, 5910-PGA, 5910-PBO, 5910-PN, 5915-PGA, 5915-PBO, 5915-PN, 5920-PGA, 5920-PBO, 5920-PN)

WALL UPRIGHTS

Codes: **5910-BO,5910-GA**

height 106,5 cm, depth 7,2 cm

Description: each upright is supplied with two brackets and is made from 50 x 72 mm T-section extruded aluminium fitted with a 105 mm pitch through-hole rack, and a matt black, matt white or silver grey epoxy-powder coating. The upright has two top high-tech polymer cap (top and bottom) painted in the same colour as the upright. The shelves are slotted in from the front, whilst the wall-mounting brackets are anchored to the back.

The wall-mounting brackets are made in epoxy-powder coated steel in the same colour as the uprights and have three anchoring points each; they are also fitted with safety elements to guarantee anti-extraction and secure fastening of the uprights to the wall.

ADDITIONAL WALL BRACKETS

Codes: **5992-BO, 5992-GA**

Description: pair of additional wall brackets for uprights in painted aluminium; they are made in matt black, matt white or silver grey epoxy-powder coated steel, each with three wall-mounting fittings, with anti-extraction safety element, also made from epoxy-powder coated steel the same colour as the bracket, to be inserted after mounting has been completed, next to the bracket.

SHELVES

Codes: **6TR120-BO, 6TR120-GA,** length 120 cm, depth 30 cm
6TR80-BO, 6TR80-GA length 80 cm, depth 30 cm

Description: the shelves are made from 2 mm matt white, silver-grey epoxy-powder coated steel sheet, with the front edge folded downwards and the side and rear edges folded upwards. The back of the shelf is shaped in order to ensure it fits perfectly flush with the upright. The shelf is coupled to the uprights by means of a special anti-overturn and anti-extraction system. The shelves are coupled to the uprights without the use of screws or additional fittings and no tools are required during assembly. The shelves have pre-drilled holes for adding accessories such as sign bands, magazine racks etc.. The rear edge acts as a guide for inserting the high-tech polymer bookends (code 6TA236).

INCLINED SHELVES

Codes: **5944-BO, 5944-GA,** length 120 cm, height 31 cm
5942-BO, 5942-GA length 80 cm, height 31 cm

Description: the inclined shelves are made from 2 mm matt white, silver-grey or matt black epoxy-powder coated steel sheet, with the front edge folded upwards and the side edges folded downwards. The back of the shelf is shaped in order to ensure it fits perfectly flush with the upright and easily aligned with the horizontal shelves. The inclined shelves have a 40 mm raised edge at the front and is inclined at an angle of 60° compared to the horizontal shelves. The shelf is coupled to the uprights by means of a special anti-overturn and anti-extraction system. The shelves are coupled to the uprights without the additional fittings and no tools are required during assembly.

BOOKENDS

Codes: **5981** lenght 7 cm, height 4 cm
5980 lenght 16 cm, height 4 cm

Description: pair of bookends in translucent high-tech polymer which hook directly onto the upright hinge and are available in two sizes - 7 and 16 cm protruding from the upright.

Code: **6TA236** lenght 24 cm, height 5 cm

Description: pair of sliding bookends made in translucent high-tech polymer that is inserted directly on the rear raised edge of the shelf.

Codes: **5987-BO, 5987-GA** L 15 cm, P 15 cm, H 15 cm

Description: pair of bookends resting on the shelf made of shaped, folded matt white, matt black or silver-grey epoxy-powder coated steel sheet..

SIGN BANDS

Codes: **6TA230-BO, 6TA230-GA** lenght 120 cm, height 12,5 cm
6TA830-BO, 6TA830-GA lenght 80 cm, height 12,5 cm

Description: sign bands made of folded matt white or silver-grey epoxy-powder coated steel, which can be screwed to the top shelf through the pre-drilled hole in the shelf itself.

SIGN FLAGS

Codes: **6TA234-BO, 6TA234-GA** lenght 15 cm, height 12 cm

Description: they are made in matt white or silver-grey folded, shaped and epoxy-powder coated steel and can be coupled directly to the upright rack. The sign flags made from steel and two sheets of PET to insert literature.

VERTICAL MAGAZINE RACK

Codes: **6TA222-BO, 6TA222-GA** L 120 cm, P 6 cm, H 20 cm

Description: vertical magazine rack made in matt white, matt black or silver grey epoxy-powder coated steel, folded to form a pocket to hold and display magazines. The magazine rack hooks directly onto the upright rack.

NEWSPAPER RACK

Codes: **6TA224-BO, 6TA224-GA** length 120 cm, depth 40 cm

Description: newspaper rack made entirely in matt white and silver-grey epoxy-powder coated steel sheet, fitted with dividers ideal for displaying newspapers and magazines. The newspaper racks are inclined to make it easier to read their names and can be hooked directly onto the upright rack.

Detail of magazine rack

CONTAINER

Codes: **6TA210-BO, 6TA210-GA** (container) - L 120 cm, P 30 cm, H 8 cm
6TA211-BO, 6TA211-GA (set of 6 dividers) - P 30 cm, H 8 cm
6TA215-BO, 6TA215-GA (pair of books-end rod) - L 120 cm, P 30 cm
6A63 (set of 7 non-slip strips)

Description: container made entirely in folded and shaped matt white or silver-grey epoxy-powder coated steel sheet, fitted with comb-style slots to insert the metal space dividers to store CDs, DVDs, VHS or paperbacks. The container hooks directly onto the upright rack.

The container can be fitted with matt white or silver grey epoxy-powder coated steel dividers (code – 6TA211-BO and 6TA211-GA) and with chrome-plated tubular steel supports (code – 6TA215-BO and 6TA215-GA), which can be fastened to the upright rack using painted steel supports. The two tubulars above the container can be used to transform it into an album, book and/or magazine holder.

Non-slip adhesive strips made in black ribbed plastic foam can also be applied to the CD/DVD holder (code 6A63).

Detail of container (code 6TA210-BO) with dividers (code 6TA211-BO) and non-slip strips (cod. 6A63)

Detail of container (code 6TA210-BO) with dividers (code 6TA211-BO) and book and/or magazine holder supports (code 6TA215-BO)
